

PERMANENT

GRAFFITI GARD®

A Genuine  TEX-COTE® Product

AVAILABLE IN BOTH
SOLVENT & WATER BASED
PERMANENT SYSTEMS!

Application

A clear or pigmented base coat, TY-COTE, is applied over a prepared surface, which can be previously painted or uncoated. GRAFFITI GUARD®, a heavy duty, clear gloss coating that resists graffiti is then applied. The GRAFFITI GUARD®IIIS & IIIW systems are designed with the professional painter in mind.

Removal

The GRAFFITI GUARD® cleaner is applied over the victimized area with a brush or roller. SIMPLY WASH AWAY the graffiti residue with water. Rinse and scrub if necessary with a soft bristle brush. Over rough surfaces, use high pressure water.

Uses

TEX-COTE® GRAFFITI GUARD®IIIS & IIIW offer excellent GRAFFITI CONTROL protection for simple walls to factories and apartment or office buildings. SACRIFICIAL GRAFFITI GARD® preserves highway structures, sound barrier walls, civic or municipal facilities, murals, schools, mass transit and shopping malls.
